

## **PRESS RELEASE — FOR IMMEDIATE RELEASE**

### **the Spaceless Gallery Announces Debut Presentation at the 20th Anniversary Edition of Design Miami**

For the landmark 20th anniversary of Design Miami, the Spaceless Gallery presents a selection of novel works by six artists. In dialogue with this year's theme, *Make. Believe.*, the presentation centers on innovation, materiality, and craftsmanship – highlighting works premiering for the first time in Miami.

The presentation features artists and designers whose practices bridge contemporary craft, emerging technology, and sculptural experimentation. Highlights include a highly limited-edition forest-green kinetic clock by Humans since 1982, inspired by co-founder Per Emanuelsson's childhood memory of sunlight filtering through the Swedish forest; a bronze tree and Aubusson-woven tapestry triptych by aurèce vettier; a 23K gold-gilded floral wall piece by Zoé Imber; a geometric totem light sculpture by Tim Leclabart; a signature Murano glass portrait vase by Hugh Findletar; and a bespoke sculptural sound installation by Oda featuring a live soundstream from the Macaw rainforest.

The gallery has also partnered with Scenarii Edition by Bérénice Curt Architecture, who has designed a walnut table and a Reishi™ chair to accompany the presentation – asserting the founders' self-publishing approach, where mastery of craft goes hand in hand with mastery of intent.

#### **ABOUT THE SPACELESS GALLERY**

The Spaceless Gallery brings contemporary art into the distinctive environments we curate, fostering meaningful connections between artists, collectors, and designers. Founded in Paris and operating between Europe and the United States, we represent international artists across diverse mediums.

Specializing in art beyond traditional gallery walls, we support collectors in building their collections and collaborate with interior designers to create spaces where art and design seamlessly blend.

Guided by a nomadic philosophy, we envision art without borders—spacelessly.
